Cuddalore,Tamil Nadu.

OBJECTIVE

An engineering student passionate about building solutions that can solve real-world problems and create meaningful impact. I enjoy learning by doing, working with others, and turning ideas into something useful. Always open to new challenges that help me grow both technically and personally.

SKILLS

Technical Skill

- Programming Languages:
Java, C, Python
- Software Concepts:
Object Oriented Programming
Data Structure
Operating System
- Web Technology:
HTML
- Tools & Platforms:
github
MIT app inventor
MySQL

Soft Skill

- Team Collaboration
- Adaptability
- Time management
- Problem Solving

LANGUAGE

- English
- Tamil

EDUCATION

• Bachelor of Engineering

Government College Of Technology, Coimbatore 2023-2027
- CGPA 8.29(Computer Science and Engineering)

• Higher Secondary Education

John Dewey Matric Higher Secondary School, Panruti 2016-2023
-94.67% (Mathematics and Computer Science)

PROJECTS

ML stock prediction

Built an LSTM-based deep learning model to predict Apple stock prices, with feature engineering and Streamlit-based visualization.

Took ownership of feature engineering, including data preprocessing, normalization, and time-series sequence generation for LSTM training.

YouTuber Management System – MySQL

Developed a PHP-MySQL YouTuber Management System with role-based login, creator and video management, and secure CRUD operations.

Integrated validation, triggers, and a responsive UI for accurate tracking and streamlined content workflows.

HACKATHON

SIH Women's Safety System

- Designed an innovative women's safety system for Smart India Hackathon, proposing a dual-mode solution combining calendar tracking and emergency alert mechanisms.
- Concept included discreet triggers like voice activation and triple power-button press to initiate SOS signals.
- Proposed features such as secure volunteer verification (Aadhaar/biometrics), encrypted communication, and complaint logging via voice/text.
- This solution was accepted for first round review

VOLUNTEERING

THE LITERARY AND DEBATING SOCIETY

- Volunteered as Event Coordinator for BrainStrain-2024
